This supplement contains information necessary to ensure the accuracy of the above Instruction Sheet.

## Change #1

Under ***Introduction***, replace the first sentence with:

The Fluke-700PRV-1 Pressure Relief Valve is an adjustable pressure relief valve for the Fluke-700-HTP-1 or -2 Hydraulic Test Pump.

In the second paragraph replace the first sentence with:

The 700HTP pump can develop pressures up to 690 bar (10,000 psi).

Replace **Pressure Connection** with:

**Pressure Connection:** 1/8-in NPT male thread. This mates with the pressure relief valve port on the 700HTP pump.
